The MB400/MB500 Series offers choice and flexibility to suit differing needs and budgets

Versatile A4 mono MFP's offering outstanding performance, quality and seamless integration into document workflow

The MB400/MB500 Series are user-friendly with clear displays, intuitive menu systems and dedicated function buttons.

Thanks to OKI's smart extendable platform (sXP) the customisable 7" touch screen of the MB492dn and MB562dnw can be used with third party software solutions such as Drivve Image or PaperCut, as well as bespoke document solutions. The powerful document management software SENDYS Explorer comes as standard with the MB492dn and MB562dnw to capture, convert and distribute documents with ease.

Sharing is easy and worry free with Gigabit Ethernet networking together with encrypted secure print and scan functions standard on all models.

High capacity toner cartridges keep running costs and user interventions low. Advanced power management reduces energy consumption while noise reduction mode ensures these MFP's are perfect for quiet working environments. Automatic double-sided copying, printing, scanning and faxing saves paper and deliver professional output as standard.

The MB400/MB500 Series are based 100% on energy efficient LED Technology and are a fast and cost effective alternative to multiple machines, combined in one ergonomic ultra reliable device. For extra peace of mind, you can benefit from OKI's unique 3 year warranty at no extra cost by registering your product within 30 days of purchase.

Whichever model you choose the MB400/MB500 Series offer a range of speeds, functionality and running costs to answer your business needs.

MB472dnw

This affordable, professional wireless multifunction printer with its 33ppm print speed does not compromise on performance or print quality. Easy to use, it has a 3.5" graphic display, intuitive menu system and QWERTY keyboard to simplify data and email address entry. Choose the toner to suit your business needs, standard 3k toner or high capacity 7k toner with lower running costs.

MB492dn

Designed for more demanding users, the MB492dn delivers faster 40ppm print speeds and a 12k toner cartridge for even lower running costs. The 7" colour LCD touch screen improves usability with handy help functions and can be fully customised to meet your business needs.

MB562dnw

This small workgroup wireless multifunction printer delivers super fast 45ppm print speeds, a high monthly duty cycle and standard 630 sheet paper capacity handling demanding workloads with ease. The 7" colour LCD touch screen, intuitive menus system and enhanced help function make the MB562dnw the perfect choice for busy workgroups.

Print speed	33ppm	40ppm	45ppm
Paper capacity (standard) with optional paper tray	250 + 100 880	250 + 100 880	530 + 100 1,160

Outstanding features to support your day-to-day print, copy, scan and fax requirements

Card Release

Release print jobs with Card Release and select document from your print queue.

Automatic duplex printing, copying, scanning and faxing as standard

Reverse Automatic Document Feeder (RADF) for simple, efficient and cost effective handling of multi-page, single and double sided documents.

User friendly and easy to operate

Customisable 7" colour LCD touch screen, intuitive menu system and enhanced help functionality; place frequently used functions on the home screen for quick and easy access.

Perfect for high volume print jobs

With paper capacity of up to 1,160 sheets*, you can support your high volume print requirements in-house.

Direct printing and scanning

Print directly from or scan directly to a USB stick without the need of a PC providing added flexibility and improving user efficiency.

Cost saving, high capacity toners

High capacity toner cartridges reduce total cost of ownership and user intervention.

Flexible media handling

Print on a wide range of media sizes and weights, from A6 to 1.3m long banners and up to 163gsm, with the auto-sensing 100 sheet multi-purpose paper feed tray (MPT).

Functionality to improve your productivity and workflow

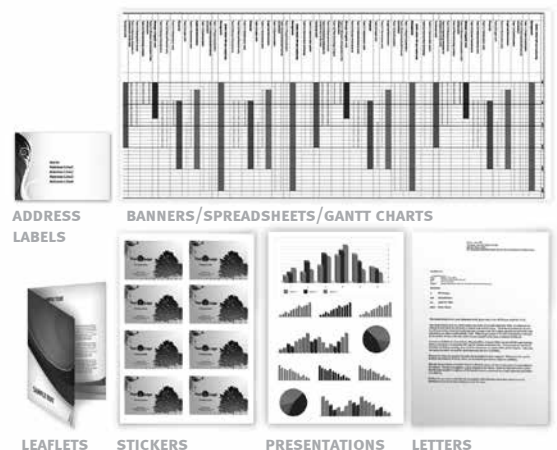

Ergonomically designed including user friendly and intuitive displays to quickly guide the user through each task. Job Macro function records and instantly recalls frequently used tasks for highly efficient working.

Print

Built on award winning technology, you can expect sharp, accurate and reliable printing.

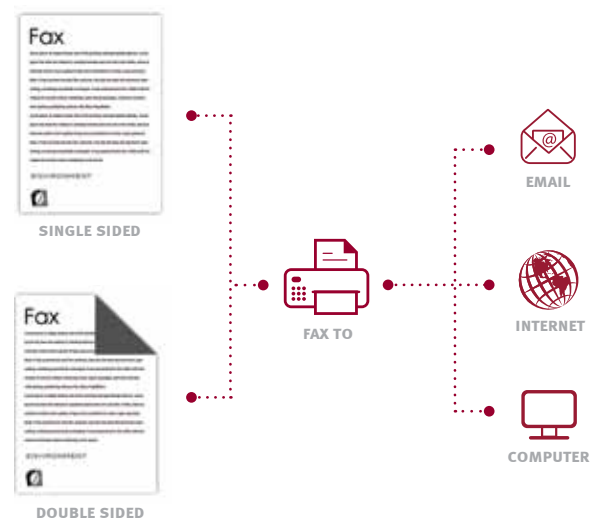

- High resolution mono printing for professional business documents
- Fastest in class with print speeds of up to 45ppm and 4.5 seconds to first print - perfect for time critical print jobs
- Duplex printing as standard – reducing paper consumption and enabling the production of business documents in-house
- Ultra-reliable 1200 x 1200dpi digital LED print technology
- Encrypted Secure Print function for protected printing to ensure document confidentiality
- Paper capacity of up to 1,160 sheets, keeping user intervention to a minimum
- Auto sensing multi-purpose tray for printing on a wide variety of media sizes and weights
- Release print jobs with Card release and select document from your print queue

Fax

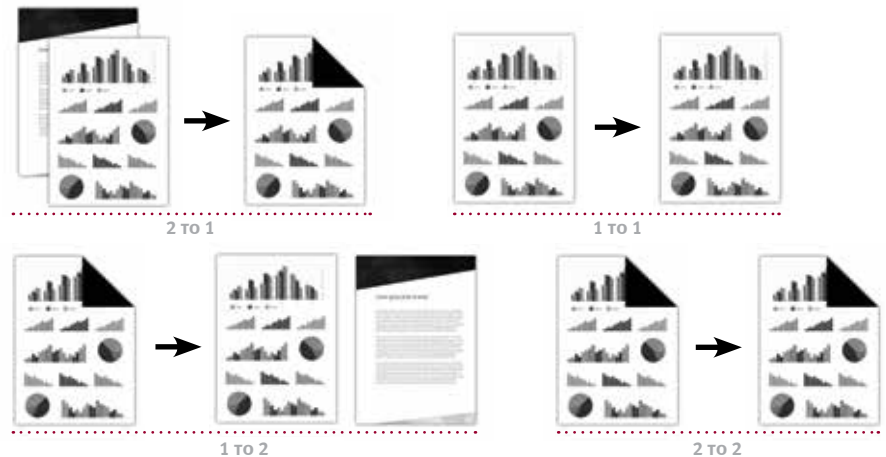

Enhanced fax functionality, delivering Super G3 speed with intuitive controls that improve efficiency and document management.

- Super G3 speed enables faxes to be sent and received at high speed
- Fax documents directly from or to your PC
- Forward faxes to another fax machine
- Forward faxes directly to an email address
- Edge removal automatically cleans up images
- Block junk faxes to reduce printing costs
- Store and view incoming faxes on 7" display¹ prior to printing, to save paper
- Save time with up to 40 one-touch buttons and 300 speed dials to retrieve regularly used numbers

Automatic duplex printing, copying, scanning and faxing

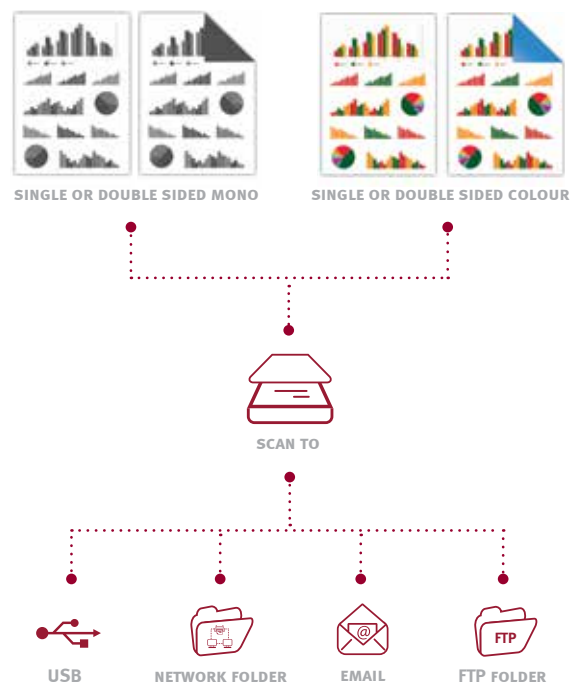

All models come with a 50-sheet Reverse Automatic Document Feeder (RADF) as standard for quick and easy copying, scanning and faxing of double sided documents.

Scan

High Definition LED colour scanner provides a range of functions that improve workflow and productivity in the workplace.

- Fast scan speed of up to 37.5ppm
- 50 sheet RADF makes light work of multi-page, single and double sided documents
- USB and network TWAIN scanning (PC and Mac)
- Save scan settings for repeated tasks
- LDAP provides direct access to contact and email data from an existing directory server, saving time and improving the reliability of document delivery
- QWERTY keypads make sending emails simple
- Job Build function enables a number of different documents to be scanned to create one single document output
- Scan directly to: USB, Network folder, email, FTP Server for fast and versatile document storage and management

Copy

LED scanning and printing, deliver superior copy quality for clear, accurate and fast results.

- Multi-page documents, single or double sided, are handled with ease
- Fast, high quality black and white copy output
- Job Macro function enables the user to programme frequently used copy settings
- ID Card copy for simple copying of double sided ID cards on a single sheet
- Background removal allows user to eliminate artefacts copied from glass or media on printed output
- Document collation automatically sorts copies of multi-page documents, saving you time

Improving efficiency and reducing environmental impact

One of the most environmentally conscious A4 mono MFPs on the market, incorporating a wide range of features to help your organisation reduce its energy consumption, impact on the environment and ongoing costs.

Consolidating multiple devices into one

Bringing together several devices into one efficient device reduces:

- Energy usage – saving you money and the environment
- Consumables consumption

Reducing power consumption

- 100% based on LED technology that inherently consumes less energy
- **Eco Mode** – improves throughput performance and reduces energy consumption
- **Deep Sleep Mode** – reduces energy consumption to less than 1.9W
- **Quiet mode** - reduces noise levels and energy consumption

Duplex printing, copying, scanning and faxing as standard

- Reduces paper usage
- Enables printing professional documents in-house

Reducing toner usage

- **Toner Save function** – reduces the amount of toner used when printing draft or internal documents
- OKI offers customers a free consumables recycling programme. Currently 97% of all materials returned through the scheme are recycled

Advanced fax functionality reduces need for printing

A range of fax features can help to reduce fax print volumes, saving energy, consumables and telecom costs:

- Send a fax to any PC on the network without the need for printing
- Store and view incoming faxes on 7" display prior to printing to save paper
- Blocking junk faxes to prevent unnecessary printing
- Internet fax reduces telecom costs

Bringing ease of use to your fingertips

Usability of the MB492dn and MB562dnw are further improved with a user-friendly 7" colour LCD touch screen.

Job Macro function allows users to record and re-use key sequences to speed up frequently used operations

Dedicated function buttons take you quickly and directly to the desired mode of operation

Customise your home screen to put frequently used functions at your fingertips for fast efficient working

QWERTY keyboard to simplify data and email address entry

Enhanced help function for handy, on screen graphic and text explanations

Store and view incoming faxes prior to printing to save paper

Integrated solutions to enhance your print and document workflow

Built into the device

Mobile Printing

Today's mobile workforce is now able to print wirelessly while on the go from any laptop, tablet, or smartphone. MB400/MB500 Series are compatible with Apple AirPrint and Google Cloud Print.

For further information on mobile printing visit our dedicated web page www.okieurope.com/mobileprinting

Security

The MB400/MB500 Series allows secure PIN printing, encrypted Secure Print and User authentication.

Software and Utilities

Smart PrintSuperVision

For the management and control of networked printers and MFPs

With a powerful reporting structure, sPSV allows IT managers to manage devices and troubleshoot any problems without user intervention, providing complete control and visibility of all printers, regardless of make or model, across your network.

Provides visibility and control of your organisation's print spend

Gain visibility and control of print usage within your organisation, allowing you to restrict access to individuals or groups and manage printing and copying within defined cost limits. sPSV also provides you the ability to report on usage across the network, capturing information on volume, paper size, media type and consumables usage.

OKI's Open Platform

sXP (smart Extendable Platform) at the heart of your business productivity

The MB492dn and MB562dnw come with sXP, an open platform to help streamline your document intensive business processes.

This web services based platform enables seamless integration of these smart MFPs with your bespoke system or 3rd party solutions, for example, SENDYS Explorer, PaperCut MF and Drive Image. This ensures that your document capture, distribution, management and output is efficiently executed and implemented, improving the productivity of your staff.

Software Development Kit (SDK) support enables rapid development of embedded solutions.

Integrated Solutions

SENDYS Explorer LITE

SENDYS Explorer enables the user to convert documents and distribute or upload to a chosen location, providing greater flexibility to edit, access, print, retrieve and share files.

- Document capture: From MFP, smartphone/tablet, desktop web interface and email.
- Document conversion: Transform scanned documents into a wide range of editable formats
- Document hub: Distribute scanned files.
- Direct-Print: Any document scanned or retrieved from the cloud directly from the MFP panel, smartphone/tablet or web interface.

SENDYS Explorer goes beyond document workflow capabilities.

Accounting and Pull-Printing: Its optional Output Management connector allows the administrator to manage all users' print, copy and scan jobs, as well as, protecting document confidentiality whilst reducing costs and environmental impact.

Go Mobile: All of the above functionalities are accessible through a smartphone/tablet app

Business Printing Specialists

OKI's printer division is a global business-to-business brand dedicated to creating cost effective, professional in-house printing solutions which are designed to increase the efficiency of today's and tomorrow's businesses and their workflows. As pioneers in innovative print technologies from digital LED to High Definition Colour, we have a portfolio of award winning products and solutions enabling businesses to achieve both image focused, vibrant, quality print communications and budget flexibility.

OKI presents a full range of A3 and A4 colour and mono printers and MFPs, for workgroups and businesses of all sizes with superior media-handling capabilities. In addition our fax, POS and dot matrix printers complete our range of print solutions. These best in class products are designed to be easy to use making the job of in-house print easier.

Considering the Environment

As part of the OKI Group's Charter of Corporate Conduct, OKI continually reviews its efforts to provide environmentally sound solutions to its customers:

- Our products are designed and manufactured with reducing the impact on the environment in mind.
- Increasing the amount of our hardware products and consumables that are recycled is one of our strategic objectives.
- We feel responsible for conducting our business in an environmentally sound manner, contributing to conservation and activities within our local communities.

OKI's Green Leaf symbol, found on all products and packaging, represents our total commitment to collection, recycling and environmental processes.

Energy Star

Our printers and MFPs have earned the Energy Star by helping to eliminate energy waste through particularly energy-efficient designs. They use less energy to perform regular tasks. When not in use, they automatically enter a powersave mode and product features such as, duplex printing, further reduce the wasting of energy and paper resources.

3 Year On-Site Warranty

Our devices are manufactured to the highest standards of quality and technology, which has been confirmed by independent tests. We are so convinced of the high quality of our products that we are offering you an extension of the standard warranty period to 3 years at no extra cost to you. Simply register your product within 30 days of purchase. For further information please visit:

WWW.OKIWARRANTY.COM/3YEAR

20 years of LED Technology

OKI pioneered the development of digital LED technology in printers over 20 years ago. This innovation delivers High Definition printing – for more accurate, striking printed documents. Thanks to this digital LED technology, our printers are compact, environmentally friendly and energy efficient, using significantly less raw materials in the manufacturing process and consuming less energy. LED print heads have no moving parts, making our LED printers robust and ultra reliable.
