KONICA MINOLTA

TECHNOLOGY

KONICA MINOLTA
MarketPlace

GIVE YOUR MFP
**THE POWER
TO DO MORE.**

CUTTING-EDGE APPS AND TECHNOLOGY FOR YOUR MFP.
WELCOME TO MARKETPLACE.

Award winning. Powerful. Centralized.
That's Konica Minolta MarketPlace.

Konica Minolta MarketPlace customizes your MFP to work the way you work. Making it simple to browse, purchase and download apps that add power to your MFP. Just like apps on mobile devices, MarketPlace apps are designed for your business needs and can be accessed right from your MFP control panel. Apps for scanning, printing, social networking, document management and more. You can even personalize your MFP control panel with the easy-to-use UI Design Tool. With new apps and features being developed all the time, Konica Minolta MarketPlace will take your MFP — and your business — to the next level.

CUSTOMIZE YOUR MFP TO WORK YOUR WAY.

Just as all of the departments in your business aren't the same, your MFPs don't have to be either. That's why we offer the MFP user interface (UI) Design Tool. It allows you to make your MFP work exactly how you want it to work.

GO BEYOND BUSINESS AS USUAL
Create a custom UI for your MFP with the features you want. Brand your MFP with your corporate logo. Simplify your control panel with the controls you perform most often. Or link to third-party apps for easy access to the apps you rely on. You can do all this and more with your MFP and MarketPlace.

CENTRALIZED
No longer will you have to physically visit each and every MFP to customize it. Now you can easily install and manage custom MFP UIs and apps on your entire fleet of workplace MFPs — from one convenient, centralized location.

EASY TO USE
The drag-and-drop UI Design Tool is simple to use. It's a web-based tool that allows you to drag, drop and position controls using an MFP preview screen as well as:

- Specify a background color for the MFP screen and background image

- Add control labels and text to the MFP screen

- Preview and test the customized MFP screen before you install it

- Add and position logos or other images on the MFP screen

- Run your customized MFP UI as the default interface that appears when the MFP is first powered on

CUSTOMIZED MFP.
MAXIMIZED PRODUCTIVITY.
By customizing your MFP with the features and apps you use most, you can add serious productivity at the control panel:

- Your company's brand will be visible throughout the workplace

- Your touchscreen will be as personal and intuitive as a smartphone

- You'll have fast, easy access to the apps that simplify workflow and speed productivity

- Your customized, intuitive MFP screens will reduce the learning curve of new hires or temporary employees — because they can get the job done with fewer clicks

KONICA MINOLTA MARKETPLACE
APPS AND CONNECTORS:
POWERFUL TECHNOLOGY AT YOUR FINGERTIPS.

CLOUD APPS

BIZHUB CONNECTOR FOR BOX
Simple and secure access to your Cloud-hosted business files

Access the online file sharing and Cloud content management service, Box, with the bizhub Connector for Box app. You can do all this and more right at your MFP:

• Browse through your Box folders

• Access, preview and print files

• Scan documents into Box

BIZHUB CONNECTOR FOR EVERNOTE
Easily connect, scan and share your information in the Cloud

Getting organized is easy with the bizhub Connector for Evernote app, which provides direct access to Evernote, the popular Cloud-based application designed for taking and storing notes. You can do all this and more right at your MFP:

• View your Evernote notebooks and notes

• Print notes

• Upload new notes into specific notebooks

With the bizhub Connector for Evernote app, your notes, files and images are always at your fingertips.

BIZHUB CONNECTOR FOR GOOGLE DRIVE
A direct line to Google documents

Browse, preview, print and upload Google documents — without ever leaving your MFP. Once logged into your Google account at the MFP's control panel, you can:

• Browse and search Google docs

• Preview and print Google docs

• Scan and upload your paper documents to folders

BIZHUB CONNECTOR FOR FILESANYWHERE
Get secure access to your Cloud-based business files

Directly access FilesAnywhere, the Cloud-based file-storage service, with the bizhub Connector for FilesAnywhere app. It allows you to do all this and more from your MFP:

• Browse your FilesAnywhere folders

• Access files

• Scan documents into selected folders

• Upload files onto your other FilesAnywhere-enabled devices

KONICA MINOLTA
MarketPlace

BIZHUB CONNECTOR FOR ONEDRIVE & CONNECTOR FOR ONEDRIVE BUSINESS
Scan, print and upload files

Take advantage of connector apps to OneDrive and OneDrive Business. With these separate apps, you can:

- Scan documents into your OneDrive and OneDrive Business Cloud account
- Print existing files
- Perform basic file and folder operations

Since OneDrive allows you to sync files between different devices, you can scan a file from the MFP and have that file appear on all your connected devices.

BIZHUB CONNECTOR FOR GMAIL
Simple access to Gmail and Gmail attachments

Browse, preview and print your emails and attachments directly from Gmail — without ever leaving your MFP. Take advantage of Cloud technology with the bizhub Connector for Gmail app. Once logged into your Gmail account at the MFP's control panel, you can browse, search, preview and print email and email attachments.

CONNECTOR FOR SHAREPOINT ONLINE
Scan, print and more in SharePoint Online

You can scan to SharePoint Online with this easy-to-use app. With the Connector for SharePoint Online, you can:

- Scan folders into SharePoint Online
- Print SharePoint Online files
- Perform basic file and folder operations in SharePoint Online

BIZHUB CONNECTOR FOR FILEASSIST
Securely store, share and collaborate in the Cloud

Access your business files in the Cloud by connecting to Konica Minolta's FileAssist solution directly at the MFP with a user-friendly interface with drag-and-drop capabilities. From the MFP you can:

- Browse through folders
- Preview and print files
- Scan documents into selected folders
- Upload documents onto any of your other FileAssist-enabled devices

BIZHUB CONNECTOR FOR FAMILYSEARCH
Scan and upload photos and documents into FamilySearch, a genealogical website

Get seamless access to the FamilySearch website for quick and easy scanning and uploading of treasured family memories. With a few taps of a button at the MFP, you can:

- Log into your FamilySearch account and begin digitally storing and preserving your historical photos and notable documents
- Enter a specific Person ID to automatically associate photos and documents with the appropriate person in the family tree, as well as enter other identifying information including titles and descriptions
- Scan multiple-page originals using the MFP's automatic document feeder

With the bizhub Connector for FamilySearch app, you can use your MFP to make sure your family history is preserved and cherished.

BIZHUB CONNECTOR FOR DROPBOX
Easily access your files in the Cloud

With the bizhub Connector for Dropbox, you can manage your Dropbox files in the Cloud, right from your MFP. With this easy-to-use app featuring a finger-swipe touch control interface, you can do all this and more:

- Browse folders
- Preview and print files
- Scan documents into Dropbox

FILE STORAGE APPS

BIZHUB CONNECTOR FOR FTP
Scan documents to an FTP server

This easy-to-use app provides a quick and easy way to scan documents to an FTP server as well as providing additional functionality to optimize your productivity. While at the MFP, you can:

- Browse through FTP folders
- Swipe the screen to scroll up and down to easily view or locate files
- Cut, copy and delete FTP folders and files
- Preview and print files

BIZHUB CONNECTOR FOR SMB
Scan documents to shared folders

Scan documents to a shared folder on your network with the bizhub Connector for SMB. It allows you to:

- Quickly access and upload documents to a shared folder
- Easily select the desired file format
- Browse folders and access files
- Scan documents to directories on your network

This app also features a finger-swipe touch control interface, maximizing your productivity at the MFP.

BIZHUB CONNECTOR FOR WEBDAV
Connect to a WebDAV server to view and upload files

Now you can use the MFP to access your WebDAV server to browse folders, access files, scan and print documents and more. From the MFP, you can:

- Search, create and work with WebDAV folders
- Move, copy, delete and print existing WebDAV files
- Upload files to a WebDAV folder

CONNECT TO ONBASE
Scan, index and upload from your MFP

Scanning, indexing and storing critical information directly into OnBase, Hyland Software's enterprise content management solution, is faster, more convenient and easier than ever with the Connect to OnBase app. Documents can be indexed directly from the control panel on the MFP and then uploaded into the correct OnBase repository, making documents available immediately throughout the enterprise.

CONNECT TO MICROSOFT SHAREPOINT
Access your Microsoft SharePoint account from your MFP

With Connect to Microsoft SharePoint, you have one-touch access to your Microsoft SharePoint account from your MFP. Microsoft SharePoint is a productivity platform that empowers people to work together more effectively — sharing information, organizing data and collaborating with point-and-click ease. Once logged into your SharePoint account, you can do all this and more from your MFP:

- Upload data and store files in a SharePoint library
- Browse, print and edit SharePoint documents

For simple data backup and fast, secure storage and retrieval, the Connect to Microsoft SharePoint app is an essential workflow advantage. You can also store files for easy access when you're in remote locations.

MarketPlace

INFORMATION APPS

BIZHUB CONNECTOR FOR FINANCE
Display up-to-the-minute stock quotes on your MFP control panel screen

In today's financial world, fast-changing business conditions can quickly affect stock prices. With the bizhub Connector for Finance app, you can:

- Display up-to-the minute quotes on five stocks of your choosing
- Keep track of current investments
- React quickly to take advantage of new opportunities

HOW2
Have questions? Get answers right from the MFP

With the How2 app, you can watch brief video tutorials that walk you through the most common functions of your MFP. Video topics include printing from a USB drive, sending documents via email, setting finishing options and much more. You can view video tutorials by:

- Watching videos via your smartphone or tablet simply by scanning the QR code in the app
- Viewing and printing PDF versions of the videos at www.kmbshow2.com

Whichever method you choose, the How2 app makes learning simple, easy and — most importantly — convenient.

RSS FEEDS
Customize the feeds that arrive at your bizhub

Get the latest news feeds faster and easier with the RSS Feeds app. From your MFP, you can customize the RSS Feeds app to display specific feeds from organizations that are related to your industry:

- Weblogs
- Subscribed online published content
- Other sources you count on for important bulletins and late-breaking news

You can access your RSS feeds at the touch of a button or have them automatically displayed on your bizhub MFP screen.

CONNECT TO TWITTER
Automatic tweets about your business

Now it's easier than ever to stay in the loop with Twitter streaming timely tweets to your MFP. From the MFP, you can:

- Review and create tweets
- Like and retweet tweets
- Customize the app to display only those tweets that are most relevant to your organization

With Connect to Twitter, you'll be up-to-date on the latest corporate news bulletins and online information.

ANNOUNCEMENT
Display an announcement on your MFP control panel as a screensaver

A strong corporate culture depends on sharing information, announcements and marketing messages with every employee — and with the Announcement app, you can customize your MFP control panel to display a corporate ad or announcement:

- Ads appear as a screensaver on the MFP when the MFP is not in use so that it never interferes with normal work
- View, pause or repeat an ad or announcement, or click on a link to view more information online
- For corporate/enterprise environments, there is the Corporate Announcements application, a PC-based software solution that allows you to manage multiple ads on multiple MFPs

Now you have the tools you need to build your company's corporate culture by broadcasting your announcements and ads to all bizhub MFPs on the network.

CONNECT TO WEATHER
Access the weather forecast at the MFP

What's the weather like? Will it affect your drive time or your travel plans? With the Connect to Weather app, you can do all this without leaving your bizhub:

- Access weather information in your current location or in another location you select
- Connect to information from either the National Weather Service or Yahoo Weather public information site
- Get quick reference to forecast conditions with simple weather icons

KONICA MINOLTA MarketPlace

PRINT APPS

PAPER TEMPLATES LITE
A library of forms at the touch of a button

With the Paper Templates Lite app, you can access and print the forms and documents you need most, including:

- Cover sheets
- Permission forms
- Certificates
- Ruled paper
- Graph paper
- Blank sheet music

Simple on-screen commands make it easy to specify paper size, number of copies and finishing options. You'll save time by eliminating the need to go to your PC. And because forms are stored electronically in your bizhub MFP memory, you won't have the expense of stocking and storing preprinted forms. Note that this free app does not include the import/delete document feature included with the Paper Templates app. Also, documents printed from this app will display a Konica Minolta logo watermark. To remove this watermark, upgrade this lite application by purchasing the complete Paper Templates app.

PAPER TEMPLATES
Additional forms and functions for your Paper Template

In addition to the Paper Templates Lite app, Paper Templates offers you extra functionality, allowing you to scan/upload your own documents to the app for future use and delete both preloaded and imported documents. In addition, the identifying watermark ("printed using Konica Minolta Paper Templates") is removed from the bottom of each page.

SIMPLE COPY
Easy, quick and convenient copying

The Simple Copy app makes it easy to set up your copy job. This time-saving app groups the most commonly-used copy options together, using graphical icons and buttons to guide you through the copy process in the most intuitive way possible. For your convenience, you can now specify the color, number of copies you would like to make, whether your originals are single-sided or double-sided and the paper size you need — all on the first screen.

The Simple Copy app also provides an Eco-Copy button that is predefined with settings specifically designed to reduce copying costs. Using the Simple Copy app, you can specify more advanced options, such as output format and finishing features. You can customize scanning functions, as well as specify output options like simplex, duplex, document combinations and sorting options.

PRODUCTIVITY APPS

SCAN CLERK
Faster distribution to attorneys and clients

For the legal profession, the Scan Clerk app can help you quickly scan and email information to attorneys, clients, courts and more. For paralegals and legal temps, Scan Clerk simplifies the process of distributing information — and helps avoid time-consuming omission and redistribution problems. With the Scan Clerk app, you can:

- Pre-program email addresses of attorneys, clients, courts and other legal service providers
- Create separate address books with email buttons for each legal case
- Set default legal address settings
- Change settings on the fly
- Manage legal address books, restrict user access and customize scan settings to suit your legal needs

EXPRESS CONNECT
Higher productivity is just a touch away

Get fast, easy access to the web pages you visit most often with the Express Connect app. You can identify web pages with intuitive icons, go straight to your site without additional keystrokes and use the same simple Express Connect portal for both corporate and general websites.

The Express Connect app can be easily customized to best suit your needs:

- Choose whether to display your links as large icons, small icons or in a text format
- Organize your links alphabetically or by most frequently or most recently viewed
- Control the overall appearance of the app by changing the background color, color of the text, etc.

With the Express Connect app, your favorite web pages are never more than a quick touch away.

CLEAN PLANET
Recycling is easier than ever

Konica Minolta's Clean Planet* program is the industry's first cost-free recycling plan for all bizhub consumables. The Clean Planet app adds to our company-wide, ongoing effort to protect the environment, reduce our ecological footprint and conserve our natural resources. From your bizhub MFP, you can:

- Order bulk shipping boxes
- Print shipping labels

The Clean Planet app also offers speed and convenience features. For instance, it can:

- Access your saved customer information to prepopulate order form fields with addresses and MFP serial numbers
- Display shipping box ordering and label printing options at the touch of a button without re-entering your customer and MFP data each time you order

Konica Minolta is committed to providing our customers with product and service options that promote sustainability objectives.

SECURITY APPS

SHARE PHI
Send and receive patient information

For the healthcare profession, Share PHI* allows for seamless integration with Inofile Kno2™, a Cloud-based software application that enables healthcare providers to send and receive patient information simply, securely and affordably right from the bizhub MFP control panel.

BIZHUB SECURE NOTIFIER
Confidence that your bizhub is protected

When your bizhub has the lock-down protection of bizhub SECURE Notifier, you have the resources you need to protect valuable data on your bizhub's internal hard drive. This app makes it easy for you to check the status of your bizhub SECURE settings, including:

- Administrator password
- HDD encryption
- HDD password protection
- Auto document deletion
- Temporary data overwrite

The bizhub SECURE Notifier app visually indicates whether or not the MFP is secure, lists the status of your security settings and allows you to print out status reports. With bizhub SECURE Notifier, you can have immediate peace of mind that your data is secure and protected.

*App not available for the Konica Minolta Canadian market.

KONICA MINOLTA
MarketPlace

READY, SET,
GO TO MARKETPLACE.

Apps to enhance productivity.
Customization to work smarter.
Sound good? It is.

BROWSING AND PURCHASING YOUR APPS ONLINE

To begin	Go to konicaminoltamarketplace.com to access the MarketPlace online.
Log in	To create a free MarketPlace account, click on the User icon and then enter your email address and password to quickly set up your account.
Browse apps	The MarketPlace website has all the information you need — including illustrations and detailed descriptions of each app.
Purchase apps	Click the Buy Now button to add one or more apps to your Shopping Cart.
Checkout	Click the Shopping Cart icon when you are ready to check out. Provide payment information before placing the order.

ACCESSING THE MARKETPLACE FROM YOUR MFP CONTROL PANEL

To begin	Tap on the MarketPlace button on your bizhub MFP screen. The apps that are currently installed will be displayed.
Manage apps	Tap on the App Manager button to install, purchase, configure and remove apps. You will be prompted to log into your MarketPlace account and then enter the MFP's administrative password before accessing the App Manager.

INSTALLING APPS ON YOUR MFP

View purchased apps	On the MFP's App Manager screen, tap on the Purchased tab.
Install	Tap on the Install button next to the app you want to install. You'll be able to watch the installation process taking place.

CONFIGURING YOUR APPS

To begin	On the MFP's App Manager screen, tap on the Settings button next to the app that you want to configure.
Modify settings	Edit settings for the app on the Configuration screen that appears.

REMOVING APPS FROM YOUR MFP

To begin	On the MFP's App Manager's Installed screen, tap on the Remove button next to the app that you want to remove.
Remove app	Tap on the Remove button on the Delete Confirmation screen that appears.

CREATING CUSTOM UIs

Click on the MFP UIs link on the MarketPlace website to get started. You now have the ability to view, create, edit and manage custom UIs for your MFP. A custom UI designer tool makes it simple to customize your MFP to suit your specific business needs.

MANAGING YOUR DEVICES

Click on the Devices link on the MarketPlace website to view and manage the devices that have MarketPlace installed on them. You can also click on the Apps & Licenses link to install apps and custom MFP UIs on MFPs throughout the workplace.

REQUIREMENTS

Installation of the MarketPlace application must be performed by an authorized service technician. Installation is FREE, but the MFP must be optimized for internet connectivity. Appropriate memory upgrade kit and i-Option license kit must be purchased and installed. (Some engines are equipped with required memory and/ or i-Option web browser license kit. Check machine specifications for details.)

COMPATIBILITY

Color MFPs	bizhub C754e, C754, C658, C654e, C654, C558, C554e, C554, C458, C454e, C454, C368, C364e, C364, C308, C287, C284e, C284, C258, C227, C224e, C224, C3850FS, C3850, C3350
Monochrome MFPs	bizhub 958, 808, 754e, 754, 654e, 654, 554e, 454e, 368, 364e, 308, 287, 284e, 227, 224e, 4750, 4050

* Please refer to the MarketPlace website for the most up-to-date information regarding compatibility.

KONICA MINOLTA
MarketPlace

OPTIMIZE WORKFLOW.
MAXIMIZE PRODUCTIVITY.
# YES, WE HAVE AN APP FOR THAT.

AWARD WINNING
In 2017, Konica Minolta MarketPlace was recognized by Buyers Laboratory, Inc. (BLI) for its "Pacesetter Award for MFP Platforms" and "Outstanding MFP App Ecosystem Pick Award." Over the years, MarketPlace has also been recognized for its customization capabilities, library of productivity-enhancing apps and cost-saving print management features that can be deployed via the custom UIs.

POWERFUL
Imagine what you can do when you enhance your powerful MFP with cutting-edge technology. MarketPlace integrates with many of the apps and services you already use every day — apps for scanning, printing, Cloud access, communication, security and more. By offering the latest technology, MarketPlace can help you extend the functionality of your MFP.

CENTRALIZED
Perfect for the enterprise, you can manage and install apps across a fleet of MFPs — all from one, centralized location. Work remotely or at your MFP control panel. It's your choice. Just create an account, browse the apps, checkout and install. It's that easy to put new apps to work for you.
